Platinum Ultra

HUNTER • TAMAR • COONAWARRA

Designed to deliver the most restful sleep imaginable, the Platinum Ultra range combines sumptuous, breathable materials with our patented Reflex Platinum support system to provide unparalleled comfort and minimal partner disturbance.

Range
FEATURES & OVERVIEW

Reflex Platinum Support System responds to each person's unique size and shape to deliver the level of support their body needs. Primary coils offer all-over support and pressure relief, while additional Active coils provide extra support where required.

Premium woven fabric with Tencel® wicks away moisture for a cool and comfortable sleeping environment. Tencel® is a natural fibre derived from eucalyptus trees that minimises the growth of bacteria.

AeroQuilt advanced comfort technology provides breathable, pressure-relieving comfort that is more resistant to body impressions.

Generous layers of **Comfort Foam** made from environmentally friendly **EvoFoam** deliver pressure-relieving comfort to minimise tossing and turning.

Body-conforming **Gel** evenly distributes weight across the sleep surface and conforms to the body to deliver pressure-relieving comfort. Its unique structure increases breathability and airflow (Coonawarra only).

Natural latex provides breathable, pressure-relieving comfort and reduces partner disturbance. It is naturally hypoallergenic and antimicrobial (Hunter only).

Mini Comfort Coils conform to the body to provide additional comfort and pressure-relief (Tamar only).

Encased in a **Performa Edge Support** – a high-density foam edge that provides a larger sleeping surface and a stronger mattress edge.
